LANDSCAPE BODY

LANDSCAPE VERSATILITY & PRODUCTIVITY

Rugby's "Landscape Body" is the most versatile and accessible body available. All Rugby Landscape Bodies are designed to meet the toughest standards, featuring a curbside swing-out door and rear barn doors over a drop down tailgate that employs Rugby's revolutionary EZ-Latch system on the upper pins.

The Rugby Landscape Body's interlaced understructure provides added strength and rigidity.

Durable 14 gauge steel front and side construction helps the Rugby Landscape Body stand up to the toughest working conditions.

STANDARD FEATURES & SPECIFICATIONS

- 14 gauge front and sides with centered horizontal formed rib
- 10 gauge two-piece floor
- Curbside front has 54" wide door opening for easy access for most pallet sizes
- Easy access to all door handles from ground level
- Outset heavy-duty greaseable hinges allow doors to be opened completely and be pinned back with provided door holders
- Interlaced understructure with 10 gauge 4" formed channel crossmembers spaced 14" apart (16" spacing on 12' and larger bodies) with 7 gauge 9" formed channel long sills
- Prefabricated tarp housing

UNI-BODY

PREMIUM FULLY WELDED
STAKELESS BODY

Rugby's Landscape Uni-Body features 48" tall stakeless sides with a centered horizontal formed rib and a 2-piece smooth steel floor, with a center seam welded underneath. The body features 10 gauge construction throughout and is available with either the traditional 2-piece barn doors over a drop down tailgate or with a 2-piece full height, double rear swing out doors. Available 12' and 14' lengths.

TAILGATE FEATURES & SPECIFICATIONS

- Two-piece 28" rear barn doors over tailgate with over-center pull action latch mechanism
- Fold down tailgate, 20" tall has double walled design, 10 gauge material inside, 14 gauge outside, fully boxed frame and two vertical braces
- Tailgate has heavy-duty 1 1/4" top and 1" bottom hinge pins
- Patented EZ-LATCH upper release mechanism to allow easy opening of tailgate
- Optional 2-piece 48" rear barn doors available

VERSA RACK

ULTIMATE LANDSCAPE FUNCTIONALITY

Rugby's Versa Rack Cargo Body gives you the ultimate versatility in stake rack bodies! Removable heavy duty 16 gauge steel 42" high side and rear panels (vented or solid) are reinforced with built-in corrugated ribs. Other features include swing-out rear barn door gates, and a front 14 gauge steel 53" bulkhead that is prefabricated for a roll tarp cover.

SIDE AND REAR CONSTRUCTION

- Side and rear panels are vented or solid 16 gauge steel corrugated for extra strength
- Stake posts are on 24" centers
- 42" tall panels come in 4, 5, or 6-foot sections depending on body length
- Side panels removable with easy to use lower latching mechanism
- 42" rear doors are vented or solid 16 gauge barn door style swing out gates with greasable hinges
- Body includes barn door holdbacks
- Easy access to all latches from ground level

FRONT PANEL CONSTRUCTION

- Front panels are 53" high made of 14 gauge steel, corrugated for extra strength
- Rounded tarp cap comes equipped with prefabricated mounting holes for roll tarp cover. (Tarp not included)

BODY CONSTRUCTION

- Available 9', 12', 14' and 16' body length
- Size 9' and 12' have 7 gauge by 5" long sills, these are interlaced construction
- Sizes 14' and 16' have 6" structural channel long sills, these are stacked construction
- Cross sill are 4" formed 10 gauge material and spaced 16" apart
- All platform decking is 10 gauge

HOISTS

NEED A LIFT?

Rugby designs and manufactures more hoists than anyone in the world. Rugby hoists are built for optimum performance and are factory tested for performance and durability. If you need a dependable long-lasting hoist, you need a Rugby!

HOIST SPECIFICATION	HR520	HR540	HR550
NTEA Class	20	40	40
Cyl. Bore & Stroke	5" x 16"	5" x 20"	5.5" x 20"
Chrome Cyl. Shaft	2"	2"	2½"
Operating Pressure (psi)	3200	3200	3200
Hoist Weight w/subframe (lbs)	550	590	650
Hoist Capacity Ranges	6.9 - 13.8 tons	8 - 14 tons	8 - 16 tons

HR & SF series comes standard with a subframe that accommodates all domestic chassis.

- Designed with formed lift shafts
- Pump bracket built into subframe
- Body prop incorporated into hoist design
- Fast installation with table top rear hinge built in

Subframeless hoists also available.
